DD/R - Machine Language Translation

DDR-190-62

16 May 1962

STAT  made a survey of the Agency's role in support of machine translation of foreign languages and presented the DD/R with following recommendations:

a. That the Agency continue its active participation in the present interagency Committee on Machine Translation Research to achieve a more centrally coordinated overall program in MT.

b. The Agency fund and actively monitor the central facility for testing MT research, directing its activities toward satisfying the rqmts of the Intel Comm.

c. The responsibility for the entire program within the Agency be place on ADPS.

d.  be phased out over a period of 9 mos. into FY 1963.

e. During phase-out a detailed record of all accomplishments to date be rendered.

STAT

*These recom. passed to DDI - 17 May (DDR-191-62)*
